

What Makes Kamala's Nectar Bliss Bath Bombs & Foot Treats different from other choices? **Here are 13 Reasons Why:**

Kamala's Nectar (KN) products are the purest and most bioavailable CBD bath products on the market.

1. No THC in our products! We have independent lab test results posted on our website verifying or exceeding our CBD milligram claim.
2. Kamala's Nectar does not use **chemicals** like polysorbates or SLSA in our bath bombs and foot treats. We believe it is more important to be healthy than to have an "extra fizzy" bath bomb.
3. Microencapsulated CBD which is used in KN bath products is 60% more expensive than average CBD and offers greater bioavailability/absorption by the body. It is 8x more effective than regular CBD.
4. We use ONLY organic and natural ingredients. Everything is natural and pesticide-free!
5. No fragrance, fragrance oils, chemical fragrance, imitation fragrance or scents. We use only pure, high-grade therapeutic essential oils.
6. Unlike cheaper bath bombs, nothing in our products or packaging comes from China. Everything is handcrafted & packaged in the USA & carries genuine organic certification.
7. Kamala's Nectar Bliss Bath Balls are much larger than most on the market, 2.75 in diameter with 108 mg microencapsulated CBD. Other sizes include a 1.75 diameter MINI with 54 mg CBD and a 33 mg Foot Lovin' Spa Treat.
8. Kamala's Nectar Bliss Bath Products are the perfect balance of moisturizers making moisturizing after the bath unnecessary.
9. The name Kamala is Sanskrit for the lotus flower which rises out of the mud to bloom into enlightenment. The name is used in our products to enhance your vibratory well-being. Sacred geometry, mandalas and numerology are also used to enhance your well-being.
10. Each creation is blessed and infused by our Yoga Master.
11. To keep things pure, we use a minimum of natural color & dried flowers so you don't clog the bathroom drain.
12. We don't use gimmicks like inserts or cheap toys in our products.
13. Each creation is a work of art which will nourish your soul on every level. The eyes behold the pure beauty of these products. The olfactory senses are nourished with high-quality essential oils. The body is moisturized and pain is minimized with symbiotic plant medicine. Kamala's Nectar Bath infusions allow the soul to be rejuvenated on every level.
