

## What Makes Kamala's Nectar Different? 13 Reasons Why:

Kamala's Nectar (KN) products are the purest and most bioavailable CBD bath products on the market.

1. We use only premium pure Microencapsulated CBD which allows greater absorption in the body. No THC in our products! We have independent lab test results posted on our website.
2. Microencapsulated CBD which is used in KN products is 60% more expensive than average CBD and offers greater bioavailability. It is 8x more effective than normal CBD.
3. We use ONLY organic and natural ingredients. Everything is pesticide-free!
4. No fragrance, fragrance oils, chemical fragrance, imitation fragrance or scents. We use only pure, high-grade therapeutic essential oils.
5. Unlike cheaper versions of bath bombs, nothing in our products or packaging comes from China. Everything is handcrafted and packaged in the USA.
6. Kamala's Nectar Bliss Bath Balls are much larger than most on the market, 2.75 in diameter with 108 mg microencapsulated CBD. Other sizes include a 1.75 diameter bomb with 54 mg microencapsulated CBD and a 33 mg microencapsulated Foot Lovin' Spa Treat.
7. Kamala's Nectar Bliss Bath Products are the perfect balance of moisturizers.
8. The name Kamala is Sanskrit for the lotus flower which rises out of the mud to bloom into enlightenment. It is used in our products to enhance your vibratory well-being.
9. Sacred geometry, mandalas and numerology also enhance the vibration of KN products.
10. Each creation is blessed and infused by our Yoga Master.
11. To keep things pure, we use a minimum of color and dried flowers so you don't clog your drain or overload your skin with non-essentials or chemical's that can make Bath Bombs extra fizzy like SLISA.
12. We don't use gimmicks like inserts or toys in our products.
13. Each creation is a work of art which will nourish your soul on every level. The eyes behold the pure beauty of these products. The olfactory senses are nourished with essential oils. The body is moisturized and pain is minimized with symbiotic plant medicine. Kamala's Nectar Bath infusions allow the soul to be rejuvenated on every level.
